Houston Asks for Contributions for Relief of Suffering at Galveston.

(A. P. DAY REPORT.)

ROUSTON (Tex..) Sept. 10.—The following official appeal has been issued to the people of the United States:

"Our sister city of Galveston has been visited by a frightful hurricana and is still cut off from all rall and wire communication with the outside world. The newspapers give extended accounts of this awful calamity, which place it among the most disastrous of modern times. The people of many towns and villages are now in sore distress, and as turther details come in the death list grows and the damage to properly increases. The stock are killed and the crops are ruined. We urgently ask your liberal and immediate assistance. Houston was in the track of the storm, but will take care of her injured and help those more seriously affected. Contributions sent either of the undersigned will be gratefully received and fudiciously expended. 6 and help those more serious oted. WORK OF RESCUE

Awful Scenes Witnessed by Relief Party During a Trip Through Galveston.

GALVESTON (Tex.,) Sept. 16.—
Starting as soon as the water began to recede, the Houston Post correspondent with others began rescuing the wounded and dying from the ruins of their homes. The scenes presented cannot be told of in a prosaic manner. Screaming women, bruised and bleeding, some of them beaving lifeless forms of children in their arms; men, brokenhearted and sobbing, bewalling the loss of their wives and children, and streets filted with floating rubbish, among which there were many bodies of the victims of the storm, constituted part

HOSPITAL PATIENTS KILLED.
The report from St. Mary's infirmary
shows that only eight persons escaped
from that place. The number of pa-

centity was awarded a prise as the meat popular officer in the city, was in a pittable condition. The toes on both of his feet were broken, two ribs waved in and his head badly bruised, but his own condition, he said, was nothing.

"My house, with wife and children are in the guilf," he said. "I have nothing on earth for which to live."

Pat O'Keens, who for four years kept a restaurant on the beach, and who is known to every visitor to Galveston, was beencaming the loss of his wife case deverything he had on earth. Where his resort steed on the beach fiscing favilion, known as the Pagndo, inchig pleasure resort known as the Olympia, and abother bath-house, are all swept away into the guilf. There were few bodies on the beach. They had been swept into the guilf. There were few bodies on the beach. He was taken book in town smiling at the loy of human companionship after his awful experience. He will probably recover. Thouse of all prominent citizens, which have escaped destruction, have been turned into hospitals, as have the leading hotels. There is scarcely a house left standing which does not contain one or more of the dead, as well as many injured.

MAY SOLDIERS DEAD.

Fifteen men, constituting all that remained of a company of regular soldiers, stationed at the beach barracks, were marched down Market atreet. The loss of life among the soldiers in the barracks, which were destroyed, must have been fully a hundred, and perhaps later reports will swell the list. At 11:30 o'clock Sunday morning the water had receded from the business portion of the city, but the streets near the bay front still contained from two and a half to four feet of water.

The Galveston News office on Mechanic street was flooded. The back end of the building caved in, and the engine and boilers were covered with water, making it impossible for a paper to be issued.

At the Union depot scenes similar to those in other portions of the city were to be found. Bagagemaster Harding picked up the lifeless form of a baby gir within a few feet of the station. Its parents cannot be located, and are supposed to have been lost. The station building had been selected as a place of refuse by a located and are supposed to have been lost. The Pensacola was in port when the storm began, but Master Simmons put to see in the teeth of the brewing storm, and it is feared that the boat and her crew of thirty-six men have been lost. There are now no big vassels about the wharves which were allie with seamen and tonguloremen Friday afternoon, stowing cargoes. The three grain sevators and Reymerschoffer mill are wrecks. They are not down, but their roofs and top stories have gone and grain stored therein has been ruined by the rain. The damage to the ships at this time when the demand for tonnage is so great is regarded as one of the worst features of the disaster from a business standpoint. None of the vessels are irretrievably lost, but if will take some time to get the boats of and to get them repaired, even though they are

On the water front the destruction of property was almost as great as on the beach, although the loss of life was not nearly so large. The wharves of the Mallory Company were completely destroyed. The steamship Alamo is lying among the ruins of the ship is cannot be told until she is dragged out in the Stream. The wharves of the Galveston Whart Company, which have been in course of construction for several months, are damaged to the amount of \$50,000, and months of work will be necessary to replace them.

DROSPECT OF PEACE.

English Desire to Expedite Settlement Increased by Germany's Action.

LONDON, Sept. 16.—[By Atlantic Cable.] The announcement that the Chinese ministers at the capitals of the powers have received satisfactory credentials authorizing them to open peace negotiations, taken in conjunction with the injunctions contained in dispatches from the Far East that China is devoloping a better disposition to arrange peace terms, is welcomed here, for the desire to expedite the settlement of the trouble is increased by dispatches received from Hamburg today, amouncing that Germany will send two additional detachments of 5000 and 600 men to China early in October. These troops, it is reported, are already prepared for their journey.

Today comes news that the Japanese representative at Shanghai has informed his colleagues that Japan is sending troops to participate in the occupation of Shanghai. Pending the arrival, it is added, 600 Japanese sailors will be landed.

A dispatch from Peking says that after the allied troops traversed the palace. August 28, the foreign ministers and generals returned and visited the audience halls, where they found six mandarins, including officials of the Twu Li Tamen. The royal apartments and the rooms set apart for the women were not entered. Magnificent marble staircases, costly bronzes and valuable vases were encountered everywhere. (A. P. DAY REPORT.)

NEW TORK, Sept. 18.—A special to
the Tribune from Washington says
that unless Minister Conger, in reply
to questions sent by cable to him nearly
a week ago by direction of the President, gives bester reasons than are
now conceived here for his continuance
at Teking he will be instructed to remove the American legation without
delay to Shanghal. Gen. Chaffee's
troops will escort the Minister and legation to Taku, and Admiral Remy will
take them on the Brooklyn to the Chiness metropolis, making that port the
meeting place for his fleet. The main
American military force will probably
not remain on Chinese territory after
October 1, and its withdrawal from
Peking may be a matter of less than
ten days.

LI'S EXTENSIVE POWERS.

Gen. Chaffee's dispatch received this morning is in line with that officer's former declarations respecting the advisability of withdrawing the American troops from Peking, and undoubtedly will cause the government to increase its efforts to effect some sort of a settlement that will permit of an early withdrawal from China. The conditions reported by Gen. Chaffee appear to warrant the conclusion that Mr. Conger will speedily leave Peking for one of the ports on the coast, where he can act more effectively, and that the United States troops will not respond to the German invitation to make a further offensive campaign outside of Peking. It is believed that objects remaining to be accomplished can be secured without further military operations, so far as the United States troops are concerned. GEN. CHAFFEE'S ADVICE.

REMOVAL IS OPPOSED. REMOVAL IS OPPOSED.

The idea of a removal of the diplomatic center to Shanghai meets with objection from those familiar with the conditions. It is said that Shanghai is practicelly cut off from Peking as soon as winter sets in, a full month being required to exchange communications, so that it would be inadvisable to thus suspend the chance of ready communication with the imperial capital.

EMPEROR MAY RULE.

CHING WILL PRODUCE HIM.

[A. P. DAY REPORT.]

PEEKING, Aug. 21, via Shanghai, Sept. 2.—[By Asiatic Cable.] It is unofficially but reliably stated that Prince Ching will produce the Emperor. The situation seems to hang upon this:

If Prince Ching can discover the Emperor, His Majesty's rule will probably be reëstablished, as there is no other likely candidate.

Prince Ching comes under the imperial edict and two other leading Chinese will be deputed to assist in the negotiations for a settlement, one of whom will probably be Li Hung Chang.

[A. P. NIGHT REPORT.]

SACRAMENTO, Sept. 10.—Despite the fact that residents of this city and surrounding places have been going to San Francisco by the thousands the last two days to attend the Admission-day celebration, the State Fair races were well attended, the crowd being about as large as usual. The sky was cloudy and the weather cool.

The polo game in the forencon between the same teams that played on Saturday drew a large crowd. The feature of the event was an ugly fall sustained by Walter S. Hobart in the first period. The ground was soft in spots, and while following the ball with his pony on a dead run, the latter went down on his head and right shoulder, falling apon Hobart. Hobart tried to get up, but could not for several minutes. He resumed the game, but had to content himself with blocking other players, his right shoulder having been somewhat wrenched by his fall. The reds made ten goals to one for the blues. The final game will be played next Saturday.

The Roman was the only favorite out of five that won today. He captured the Stanford three-year-old trotting stake in straight heats, his best time being 2:124.

Dolly Dillon was a strong favority in the 2:12 trot, but had to be content with second money, Hasel Kinney winning the second, fourth and fifth heats. The best heat was 2:13.

Hamboulis, Enlps and February were the favorites in the three running races. Bamboulis was not placed, but Snips and February each ran second. Summaries:

(A. P. NIGHT REPORT.)

MONTEREY, Sept. 10.—The annual Pacific Coast championship gentlemen's doubles tennis tournament began on the courts at this place at 10 o'clock this morning. The drawings were had last night, and the play began with a good attendance and much enthusiasm. The preliminaries and the first round were finished. The closest play of the day was that between Code and Beaver of the California Club, and Talbot and Roth of Stanford, but the best tennil shown thus far occurred in the Murdoch-Haight and Whitney brothers contest, the points being hotly contested, and the game of each team exhibiting exceptional skill. The superior team work of the Whitneys and the terrific smashing and driving of George Whitney, the Coast singles champion, carried victory to the Whitneys ide.

The results of the day's play were as

NEW YORK, Sept. 10.—Beautiful weather, a perfect truck and a first-class card were the features of the opening day of the grand circuit meeting at the Empire City track. About 1000 people witnessed a great day's sport.

The 2:06 trot brought a great field together. The race was won by Lord Derby.

A big field met in the 2:30 pace, and everything in the race was backed, but the betting finally settled down to 3100 on the field to 570 on The Private. The race was a hot fight between the favorite and the gray mare Rana, and after five heats had been decided, the sixth heat was permitted to be paced. It was a pretty race all round, but as they neared the wire the favorite landed neatly by a length. Summary: The 2:12 trot, purse \$1200: Bay Star won in three sraight heats in 2:08, 2:09, 2:094. Big Timber, Nell Gwynn, Tudor Chimes, Farris, Sesperis, Georgians, Maggie Anderson and Jack Daino started.

The 2:08 trot, purse \$1200: Lord Derby won in straight heats in 2:07, 2:07, 2:08. Grattanbery, Lord Vincent, Gayton and Charley Herr also started. The 2:29 pace, purse \$1200: The Private won the third, fifth and sixth heats each in 2:1246. Rana won the second and fourth heats in 2:1134, 2:1284. Barrister won the first heat in 2:1446. Anne M. Tom Mack, Braden, Laconda, Lady Allright, Addle Parker, Hipless, Barney King, Hay Jewess, Argo, Director and Tommy W. also started. The free-for-all, one mile: Sembla won, Frankie R. second, Carl Don distanced: time 2:15.

AID EXTENDED TO LIVING.

(A.P. MIGHT REPORT.)

AUSTIN (Tex., Sept. 10.—When asked tonight by a representative of the Associated Press for an expression as to the food situation along the guif coast, Gov. Sayers said.

"I think it is the most deplorable catastrophs in the history of America, and I feel that every possible aid should be lent the sufferers in their hour of great need. From information received here, I am led to think that hundreds of families have either lost their dear ones or been bereff of their homes, and the case is one that will certainly appeal to every one. I have taken active steps to raise relief for every one that can possibly be looked after. I have wired to all the city mayors and the court judges, asking them to secure all funds and provisions possible, and their replies tonight are very greatifying. The assistance lent us by the Federal government in the way of 56,000 rations and 1000 tents will aid not a little in relieving the situation at present.

"The first duty, of course, will be to look after the living, those thirsting or nungry, without either water or palatable food to cat, but I think within a day or two we will have the relief corps working in good order. I will give the matter my personal supervision, and am confident that we will see to it that everybody is looked after. It will require considerable money, however, to do all this, I have located several assistants, and the adjutant-general is near the scene of action, and they will personally supervise the distribution, while I remain here to anywer all inquiries."

QUESTIONS ANSWERED.

FALSE PRETENSES—M. P. K.
writes: A owes B \$100 borrowed money.
He tells B he has the offer of a good
position in Chicago, but lacks funds to take him there. If B will lend him a few more dollars he will pay the debt. B accommodates him, and though A has been drawing a good salary for several months, not a cent or even a letter has B received. Can B be prosecuted for obtaining money under false prefenses?

Answer: He cannot. To come within the purview of the statute a false prefense must be a representation concerning a fact alleged to be at the present in existence. A mere false promise to pay a debt will never serve as a basis for criminal proceedings.

You have two remedies. A can be sued, and his wages garnished probably. Or, better still, a representation of the facts to his employer would be likely to result in a requirement to pay the debt or leave the service. Many

and qualified to make a desert land entry so far as to meet the requirements of citizenship?

Answer: Tarer is no legal holiday whatever on which it is unlawful to make a contract or perform an official duty. Some acts are illegal in some States if done on Sunday, which, however, is not a holiday at all: but no make a contract or perform an official duty. Some acts are illegal in some States if done on Sunday, which, however, is not a holiday at all: but no puritante States, outside in the mount of the same of the performed thereon or rigid Sunday leve, even, except so far as necessary to prevent disjurbance. And as to letter the performed thereon null and void, or in any way illegal by reason of the day.

Second. Marrying an alien does not make a woman an alien. So far as a citizenship is concerned a woman who marries an alien is nevertheless competent to make a desert land entry.

BERKELEY Sept. 10.—A slight earthquake was recorded today on the instruments of the students' observatory. The records are among the best that have ever been received. The principal disturbances were preceded by a series of small oscillations in the exact east and west line, according to the Ewing seismograph. The oscillations commenced at 1:57:33½ Pacific standard time, which is considerably before the disturbance was actually felt.

before the disturbance was actually felt by any one.

The vibrations can be distinctly traced, for about 28 minutes. During that time several more pronounced shocks took place, the principal one of which was felt by the people in Berkeley. The maximum displacement was about one-twenty-fourth of an inch. These observations were made by A. O. Leuschner, director of the students' observatory.

Then he indulged in a terrible in-dictment of dirty politics, and used more epigrams.

"Is it right for the government to be in partnership with the liquor traf-fic?

"Honesty is the only issue of 1900."

POLITICAL GOSPEL.

The practical message in Mr. Woolley's address was summed up thus:
"The one hope for the country is the spreading of the political gospel that government must stand for the right thing."

The "right thing" was Phohibition.

To get this the first thing needed, said the speaker, is the Republican party. He painted it very black and sinful, called it "the Pluto of the political Olympus," and said it had put on the whole armor of the world, the fiesh and the graveyard.

"The Democratic party," he concluded, "is the rear elevation of the same thing. We need it, too.
"The Republican party, representing capital, says let us make money regardless of souls and lives. The Democratic party says let us all make money. God says let us make men.

"Where in American politics can we find men with the ideals of Jesus Christ? Only in the Probibition party."

by four lengths from Envel. Four Aces being third and Blackwood last. Time 1:19th.

The last race was between Haclenda, Centinela and Gibbertifilibbet, at siz furiongs. The latter mare is such a bad actor at the post that her owner W. Pedley, told the starter to let her off whenever she was straight. The consequence was that she got a length the worst of the start. Haclenda led for the first three furiongs when Centinals closed in upon her but the daughter of Volturno had speed to spare and won by two lengths in 1:18. The gray mare, shortly after entering the straight, ran out of the track into the flat but her rider got her back again. Her bolt, however, had blotted out all her chances and she finished third.

These same horses meet again today at a mile and the chances are in favor of Centinela running an improved race over her effort of yesterday. There will also be three other races, one of which is for pole ponies, in which the old favorite. Red Jacket, will make his first bow of the season. The sport was first-class yesterday and there is no good reason why it should not be equally so today.

BOYLE REIGHTS TERMIS.

BOYLE REIGHTS TENNIS.

THIRTY ENTRIES TESTERDAY.

The tennis players are making the best of the pleasant weather. There were nearly thirty entries in the open tournament, men's singles and doubles, begun on the Boyle Heights courts, corner Soto and Brooklyn avenues yesterday. The finals will be played today. The play in the singles left Prits Overton and Trow Hendrick of Los Angeles to opniest for the men's championship,

and Florence and May Sutton of Pasadene for that of the ladies.

The play began in the morning. Cecil Haig of Alhambra defeated Harry Lane, the Alhambra champion, which was rather a surprise, but goes to show the uncertainty of tennis. It also shows that there is oftentimes very little difference between the play of a champion and a man who is classed as second or third rate. Fritz Overton then bent Haig in quick time. 'A. E. Bell, content with the laurels and fatigue of the Alhambra tournament, defaulted to Woodbury, who then went down to Overton.

"That in every city there is an evergrowing and widening area known as
the downtown district, from which
churches have practically disappeared,
is patent to every observer of the evojution of modern city life. This area
embraces the great mass of degradation and vice of the city. Between
this district and what has been termed
the respectable portions of the city is
a borderland that the churches have
not wholly abandoned, but in which
they are waging a losing battle. From
this borderland they are steadily receding on the one edge and the sulcon
and the brothel are as steadily encrosching upon it on the other. The
remedy for this is to be found in the
enving force of Christianity.

"The churches are retreating from
the hearts of our great cities because
of failure of financial support; of the
moving farther out of the portion of
the congregation which is expected to
give stability and permanence to the
work, of a growing tendency to depart from a plain, simple, nonritualistic form of public church service. My
brothers, the heart of the suffering
tolling humanity is hard and bitter,
not so much because of the more fortunate lives about them, but because
of the way these lives are lived selfishiy apart. Give yourself. It is more
than money. The world is hungering
for the gospel message. Giving yourself is more than giving money. It is
brotherhood, not charity, that is
craved."

An animated discussion followed the

Statesman, Phytorian, Economist, Author and Saldler, Governor of New York, and Candidate for Vice-President of the United States.

PROMPTLY upon Governor Rocevelt's nomination for the Vice-Presidency, the leading Republican and Independent newspapers, believing they would be rendering a public service, formed an association to act as one buyer of an enormous edition of Governor Rocevelt's writings, so that all newspaper readers could obtain a fine library edition at a nominal price. The representative of the papers arranged with Governor Rocevelt's publishers, Messrs. G. P. Putnam's Sons, to obtain from them a limited edition to be sold for \$7.50 a Set in Cloth Binding, Instead of at \$24.50,

To be Sold to Newspaper Readers Only In sets of Pifteen Volumes for \$7.50, or in single Volumes

for 50 cents a copy.

They also arrange for a limited number of copies to be bound in Paper Covers, with untrimmed edges, so that those desiring it could have the works bound in half calf, or other fine and expensive binding, as individual taste might desire. In this form they will be sold for the almost nominal price of \$3.75 for the set of Fifteen Volumes, or in single volumes

for 25 cents a copy.

The Mesers. Putnam's well known and well deserved reputa-tion as makers of fine books, renders a further description of this esutiful edition unnecessary.

It may be stated, however, that among the illustrations will be found three separate portraits of Governor Roosevelt, as untsunar, soldier and in civilian dress, and that
